SUMMARY

Full Stack Developer with a Bachelor's degree in Management Information Systems and over a year of freelance experience. Skilled in creating innovative software solutions and optimizing systems, I excel in both team and independent projects. I am dedicated to delivering high-quality results and eager to contribute to impactful projects while advancing my professional growth

EXPERIENCE

Freelance Full Stack Developer

Freelancer

Lebanon

- Developing and Testing Web APIs using ASP Core.
- Collaborated with clients to define project requirements and deliver solutions that meet their needs.
- Developed and maintained dynamic websites for various clients, handling both front-end and back-end development tasks
- Managed databases and backend services with SQL Server and MySQL.

PROJECTS

E-Commerce Fashion Platform

Developed an online store using **Angular** for the frontend, **ASP.NET Core** for the backend, and **SQL Server** for database management.

Implemented features including product browsing, filtering, cart management, user authentication, wishlist functionality, and secure checkout with billing.

Smartphones E-Commerce Website

Built a site with **HTML** and **CSS** for the frontend and **PHP** for server-side scripting.

Included features such as user login, product management, cart functionality, wishlist, and a secure checkout system.
Added a comprehensive contact page to enhance user interaction.

Restaurant Management System

Developed using **VB.NET** to manage restaurant operations, including menu management, order processing, and billing.

Implemented functionalities for employee management, such as tracking salaries and generating detailed reports.

Coffee Shop Mobile App

Designed a mobile application using **Java** and **XML** for menu browsing, order placement, and bill management.

Incorporated features for viewing detailed coffee information, applying discounts, and tracking order history.

STRENGTHS

Analytical and Problem-Solving Skills

Applied analytical skills to diagnose issues and develop innovative solutions, improving project outcomes

Teamwork and Collaboration

Excelled in teamwork and collaboration by working with diverse teams to drive project success and achieve common goals.

Time Management

Skilled in prioritizing tasks, managing multiple projects, and meeting deadlines through strategic planning and organization
